

At Supple Skin Llc giving is part of our skin care philosophy. Our core philosophy focuses on internal beauty through health and well being. Our philanthropic programs are part of what we call 'Mental Detox' within our philosophy; in which we encourage people to give in order to stimulate a state of peace through kindness. We believe that this helps release toxins and tension that can contribute to premature signs of aging.

How we select organizations to support

1) Community - Community organizations take high priority in our support programs. As a retailer and manufacturer based in Houston our customers, team and support are all part of an ecosystem that makes us who we are. We also seek to support communities that contribute to our raw materials, especially those in developing and/or impoverished groups throughout the world. We are proud to support the communities that support us.

2) Poverty- Alleviation of hunger, suffering and severe social inequalities is a driving principle of our giving program. We consider these needs to be primary human needs that no person should suffer.

3) Women- Supple Skin Llc is founded by a young woman who has relied on the success and contributions of the women before her. It is a personal ambition to support organizations that urge girls and women to accomplish the unexpected, sustain a healthy image and use hard work and knowledge to achieve any goal.
